

GNU UGC-STRIDE Sponsored One Week Capacity Building Training Workshop

GN

Applications of Modern Techniques in Hydrogeomorphology (HydroGeo-2022)

(As a part of UGCs Scheme - STRIDE Component - I)

 **November 23 - 29, 2022**

Organized By:

Department of Geography

Kazi Nazrul University

Asansol, West Bengal, India

Thematics:

Module 1: Flood Geomorphology

Module 2: Groundwater Hydrology

Module 3: Geospatial Technology for Hydrogeomorphology

Eligibility Criteria:

Early-career researchers (Ph.D. students, postdoc, or other young researchers without a permanent position and within 8 years from the Ph.D.), and Postgraduate students in the fields of Physical Geography, Geology, and Environmental Science are eligible to apply. Some familiarity with computer programming and basic mathematics is desirable, along with a basic understanding of Geomorphology and Hydrology.

Application Process:

To apply for participation in the Hydro-Geo 2022, send (i) a motivation letter, (ii) a CV, (iii) an abstract of ongoing research, and (iv) a support letter from the advisor/supervisor as a single pdf file to: knustride1@knu.ac.in with a copy to (CC) sujay.bandyopadhyay@knu.ac.in **before 13th November 2022 (Sunday)**. Applications received after this date will not be considered. Applications will be evaluated by the organizers. Only selected candidates will be informed by email.

Costs:

- There will be no registration fees for the training workshop.
- The candidates must make their own travel and accommodation arrangements.

Selected candidates shall attend the program physically at Kazi Nazrul University, Asansol.
