Dear Young Geomorphologists,

the Selection Committee appointed by the Executive Committee of the International Association of Geomorphologists (IAG) has assessed the applications for the IAG Grants offered to favour participation of young scientists in the Regional Conference on Geomorphology and related 2nd IAG-EGU Intensive Course.

A high number of applications were received (50), 41 of which eligible for grant awarding according to the criteria reported in the Call for IAG Grants.

On behalf of the IAG Executive Committee, I am very pleased to inform you that you have been ranked among the top 15 Young Geomorphologists of the final standings.

IAG would be able to offer a Grant to most of you, if some of you can find a CO-FUNDING source. Otherwise, the number of grants is likely to be restricted to about 6-8, due to the available budget.

Of course, I am not expecting that all of you are all able to find a co-funding, but if you can count even on a small budget, please let me know. This may contribute to increase the number of the IAG grants.

I would be grateful if you could let me know about any possible co-funding **before MAY 31**, specifying either the budget (in euros) that you may have available or whether you may have co-funding to cover accommodation, flight etc.

Finally, the amount of the grants will depend on the place where you are presently living and on possible co-funding.

I am sure that you understand the spirit of this e-mail, that is to try and give a chance to be in Athens to as many of you as possible.

I look forward to hearing from you soon!

Marta Della Seta  
on behalf of the IAG Executive Committee

To: "B. Sujoy" &lt;sujoybandyopadhyayest@gmail.com&gt;

Dear Sujoy,  
after having received the feedback from the other candidates, IAG can offer you a grant of 700 €.  
You are kindly requested to confirm the acceptance of this grant as soon as possible.

Kindest regards,  
MDS
